### Sports Permission Slip

**Sport** \_\_\_\_\_

I give permission for my child \_\_\_\_\_

to be part of this activity. Any student playing a sport in 2015-2016 will need to get a sports physical exam done before the start of the 2015-2016 season. The sports physicals are only good for one year. The athlete and parent will also need to fill out the concussion form before the first practice.

I am aware of practice times and I understand that I will need to be there by the designated time to pick up my child or have other arrangements in place for my child.

I understand that at the end of the season I will need to turn in to the coach any uniforms & equipment that was provided for my child to participate. The items need to be clean and if there is any damage I will inform the coach.

Some sports will have a fee or an association charge, these will need to be paid before the first practice. You may contact the coach if you have any future questions.
